Subject: Fwd: [BOARD] Seeking information from attorney

This is an important update from Ms. Hicks, whom we met with at Brookside earlier this week. As you see, the situation is untenable and poses health and safety as well as security hazards.

We are proceeding with the purchase and installation of a door bell video camera at her unit. So we be collecting meet video evidence.

Regards

Robert Haddad

To: Rammy Azoulay <Rammy@mymetropolis.net>, Robert Haddad <board@brooksidepark.org>

Good morning, Rammy and Mr. Haddad,

I am reaching out to you as I am now ready to call to report the horrible smell from 564 D2.

I came home from work last evening, went to the restroom and the smell was horrible. The stinch was bad, my eyes were burning and I got a headache. It took my breath away for a second.

I tried looking for a phone number to call to have someone come out but everything was closed. However, during our meeting Tuesday, the attorneys mentioned they would help with getting someone come out, I'm ready to make the complaint.

I cried last night asking GOD why can't this person leave as the smell and the damages are taking a toll on me...

If you could please provide me with the information or next steps that would be greatly appreciated!

Thanks, have a good day and a great long holiday weekend!

LaTrenda Hicks
564 B2
